

WILL ACCEPT NO EXCUSES

Health Board Will Rigidly En-
force Quarantine Laws.

TO INFORM CHILDREN

Of the Exact Nature of Health
Regulations.

No excuse for the ignorance of the health regulations of the city will be accepted by the board of health after the opening of school next fall. This was announced to a reporter for the Eagle by Dr. Shultz, president of the board of health, yesterday afternoon.

The board will take stringent measures to prevent the spread of contagious diseases among school children, and the quarantine periods will be rigidly enforced.

"The health board will place in the hands of Superintendent Knight, for distribution in the schools, copies of the health regulations. These will be given out at the schools on the first three Monday of the term, so that if a child is absent one or two Mondays he will be sure to have a copy of the health rules, anyway. The teachers will be instructed to inquire of their pupils whether or not they have received a copy of the rules."

"The quarantine period for the various contagious diseases is as follows: Smallpox, 21 days; measles, 21 days; scarlet fever, 42 days; diphtheria, 21 days; membranous croup, 21 days.

"If a case of contagious disease is not reported to the health officers, Dr. Shultz, the board of health will make an example of the guilty parties. We will hold both the parents and the attending physician responsible for not reporting the disease."

"The present condition of the health of the city is good. There are but four or five cases of smallpox, no scarlet fever, and no measles have been reported, although I believe there are some cases of that disease."

STEVE OLLIVER, CITIZEN

Barber County Good Fellow Makes
Wichita His Home.

Stephen H. Olliver, one of the pioneer citizens of Kiowa, has moved to Wichita to identify himself with its business and growth to a greater city, and was busy yesterday with J. R. Catell looking for a suitable house to purchase for his permanent home. Mr. Olliver is a thorough Barber county man, a hustler; from way back, a most genial and companionable comrade and a man who laughs as heartily as Councilman Van Dusen. A few snow flakes are lodging about his ears, a billiard ball polish of the O. I. Bentley kind is creeping back in his forehead and his sort of thinks it is about time to retire and enjoy reasonable rest the balance of his life in a town not so big but what one can know all his neighbors and not as small but what he can have all the advantages of city life. "Steve" is a mighty good fellow and will have popularity enough in Wichita inside of three years that he can't keep his friends from forcing him into an alderman's chair with a shotgun.

IS THERE TROUBLE OVER COAL

Rumor That Santa Fe and Rock
Island Have Disagreed.

There was a rumor yesterday to the effect that some kind of a misunderstanding had come up between the Rock Island and the Santa Fe and that the latter road had determined to terminate its through rates on coal from the Cheateau and after the 25th of this month charge local rates for coal from Oklahoma City received from the Cheateau road.

The leading coal dealers in this city did not seem to know very much, if anything about it, and one of them said it was nothing of the kind was done but presumed they would be notified to about five days after the new arrangement went into effect. Some of the railroad men admitted that there was some little disturbance about rates from the Santa Fe to the southwest, but they did not know that the Cheateau road would have anything to do with this.

Dysentery

It is a dangerous disease, but can be cured. There is a remedy that never fails. It has been used in nine epidemics of dysentery with perfect success. It is called Chamberlain's Colic, Cholera and Diarrhoea Remedy.

It is equally valuable for children and when reduced with water and sweetened is pleasant to take. Price, 25 and 50 cents.

days in bed with intense pain and suffering. I was under the physician's care for over a year without any relief, when my attention was called to Lydia E. Pinkham's Vegetable Compound by several of our Mormon women who had been cured through its use. I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, Mrs. HULDA JAKEMAN, Salt Lake City, Utah.

unless the Santa Fe had taken a notion to give that notice for the purpose of bringing the Rock Island to terms or something else.

These rumors about the railroads are hard to run down, for the reason that railroad men are very reluctant about being quoted in the papers. The coal business seems to be a sort of disturbing element among the roads and there are frequent rumors that some change is about to take place.

Some time ago the Central Coke and Coal company bought out the Kansas and Texas Coal company and several millions of dollars are said to have changed hands in this deal. That was made for the purpose of harmonizing the coal business in the eastern part of this state. It is now hinted that a greater combination is about to be accomplished and that a number of the largest coal interests will be merged.

The meetings to accomplish this combination of coal interests are said to have been held on the quiet in Kansas City and that an effort is being made to form a trust that will not be opposed by the railroads. The railroads claim to have nothing to do with the management of the coal companies, but the coal dealers say that the officers of the railroads are big stockholders in the coal companies. People have learned that when rumors are in circulation about the change in the management of railroads that the rumors were well founded, however much they were denied at the time.

This matter of fuel is very important to a great part of the country and any rumor that promises to effect the price of coal never fails to cause interest. Just what effect the further combination of coal companies would have on Wichita of course cannot now be told, but one thing the people are certain, and that is that a combination of the big coal companies is not necessary in order to sell coal cheaper. Any of the present companies could put the price down, but a combination might be necessary to hold it up or put it higher than it is now.

ALFALFA IS THE BEST CROP

For Kansas Farmer Says Sam Vandegraft.

Sam Vandegraft, who has resided in this county for more than twenty-five years, was in the city on business yesterday. Mr. Vandegraft proved up, and still owns a very fine half section of land six miles north of the city, on Lawrence avenue. Early last spring he purchased 20 acres of land on the Cheateau river in the eastern part of Kiowa county. Early in April he sowed twenty acres of alfalfa, which is now about two inches high and making a very good growth, and is a most excellent crop. For some years Mr. Vandegraft has grown alfalfa on his home place, and he is greatly pleased at its success on his new farm. He says that alfalfa is the very best crop that the Kansas farmer can raise.

INTEREST OVER THE STATE

Secretary Resing Receives
Encouragement From
Stockmen.

Mr. H. L. Resing, secretary of the exposition and carnival association, returned yesterday from a trip to Topeka. He visited some of the railroad agents, Secretary Coburn, H. A. Heath and a number of others, and he reported that men throughout the state have taken an interest in this fair and that it would be the largest ever given in this state. For many years there has not been a real exposition of Kansas and her products within the state itself, and at the present time there is a considerable influx of farmers and business men from Illinois, Indiana, Ohio and Iowa, but Kansas can take care of a few more of this class of people and there is no better way to show the customer what Kansas produces than in an exposition. That is the reason the business men and farmers over the entire state are taking such an interest in the Wichita fair.

They realize that there is no better place in the state where a fair could be held this year than Wichita, and the people want to make it as large and representative as possible. Mr. Resing talked with a number of stockmen while away, and every one of these gave him to understand that they would be here this year with their stock. The railroads have signified their intention of bringing excursions from the eastern states to Wichita during the fair, and these stockmen want to show what can be and what is being produced in Kansas. They know that there is no better stock produced anywhere than in Kansas, but it is a hard proposition to make the easterner believe this fact, and the stockmen and farmers are going to show 'em and they will show 'em right.

The promoters of the exposition began at once to make in Wichita a true, typical and immense exposition of Kansas products. They have labored hard getting the funds necessary to carry on this project as it should be, and they are deserving the support and co-operation of every man in Kansas who is interested in the welfare and building up of the state.

While in Topeka Mr. Resing had a talk with O. P. Updegraff, a man who attends every fair and race meeting in the west. Mr. Updegraff informed Mr. Resing that at all of the fairs he attended this fall he would announce the Wichita events to horse men and stock men and would use his influence to get all of the principal breeders and racers to come to Wichita the last week in September.

Joe White, the livestock agent of the Rock Island, was in the city yesterday and called on Mr. Dean and asked him what was wanted of the railroad men to advertise the fair. He said that Wichita's fair was the whole show in Kansas and all in their power to bring hundreds of people to this city the last week in September.

A Heavy Circus Wagon.

When the great Wallace show exhibits in Wichita, Saturday, July 26, of all the ponderous wagons one will be especially conspicuous. As is generally known the largest hippopotamus ever captured in the River Nile alive, and brought to this country, is owned and exhibited by the great Wallace show.

As sleepy-eyed George (the "hip") lies in the water tank of his home on wheels, he seems perfectly satisfied, as if he knew he had a far more expensive home and received better treatment than the average citizen of the land.

George is a great giant of his kind, his gilded, steel cage is a huge affair and when the tank of the wagon is full of water the loaded den weighs a trifle over seven tons, and as it persists in getting mired in the slightest mud or soft ground, it brings much grief to the circus employees in bad weather.

When the public view the great Wallace show they will find it profitable to become better acquainted with "Big George," provided they can do so without slighting the many other rare and perfect specimens of animal life in the menagerie.

Miss Yoder has only recently taken charge of the millinery department at Rorabaugh's, but in her short career has won a host of friends for her section of the big store.

Mr. R. Q. Snyder of Rockford town in this city yesterday on business reports crop matters as follows: Nationally in his portion of the country, The oats are a very fine yield, and the corn is coming on very fine, under very abundant rains. The wheat is turning out far better than anticipated; small fruits are abundant and there is a good apple crop ahead. Mr. Snyder has been in this country for more than twenty-five years. He counts the present one of the big years.

Walter Stuppich and Alf Conklin, Miss Flossie M. McComb and Miss Mabel Magill have returned from their outing on the Walnut river. About twenty young Wichita people established Camp Edwards seven miles south of Augusta, where most of the party still remain. Those who have returned report having a splendid time. They gave several parties which were attended by the young people in the vicinity of the camp. Walter Stuppich said last night that the people who visit the eastern seashore could not have a more enjoyable time than the people at Camp Edwards.
